## Project Idea Proposal

### “Explainity”

Team 2

### **Project Idea: -**

Our app needs to give the users the ability to explain to each other in a simple way by drawing like you write on a paper, so you can explain to one or more users your idea/problem with just drawing instead of written chat.

### **Project Plan: -**

This project should be delivered in 3 weeks working so we hope to deliver the project in the most important areas and working correctly instead of just making a big project with problems in the most important areas so we make the optional TODO items.

[Optional]: could be implemented or not.

Date Start	Date End	TODO
26/3/2019	1/4/2019	Design and implement Database (optional)
4/4/2019	6/4/2019	Make the client-side drawing area
7/4/2019	14/4/2019	Make server-side to handle connections
11/4/2019	14/4/2019	Make connection with database (optional)
11/4/2019	14/4/2019	Make login, signup and user interface (optional)
14/4/2019	21/4/2019	Finish some remaining stuff and making decent GUI
21/4/2019	25/4/2019	Testing
25/4/2019	26/4/2019	Document the Project
27/4/2019	27/4/2019	Project Discussion

**Similar Projects to our idea: -**

- [Live Board](#)
- [AWW App](#)

**Idea Related to proposed ideas: -**

This idea is related more to the chat app idea - so if this idea has been refused, then we choose the chat room app idea - but as we think this idea will give us a value.

**Contacts: -**

You can contact with any one of us but it's preferable to talk to our team representative:
